SUBJECT: Bureau of the Budget Release for Project

25X1A2G [redacted]

2. It was indicated that, although Project [redacted] was being financed within allotted accounts, it would not be too difficult to prepare a special analysis of the affected allotment accounts to determine the precise amount expended under Project [redacted]. This could be done by merely reviewing the accounts and deleting from them those items not properly chargeable to the [redacted] operation.

3. It was requested that both OCR and ORR prepare a special report monthly, giving the amounts chargeable against Project [redacted] and forwarding such reports on an "EXRS ONLY" basis to the Chief of the Budget Division. It was indicated that, at least during the early part of the year, there was no need for submitting these reports until after all of the accounting data became available to the offices. It was stated, however, that if the amount charged against the Project was running close to the amount authorized, it might be necessary to request more prompt reporting toward the end of the fiscal year.
